

Re:K-LOVE This station is the one I listen to the most. The programming carries a positive message to the listener. If it were to go off of the air the community would loose a station that can be counted on to carry programming that is never offensive and is always encouraging. I have noticed that it always broadcasts the US Weather service alerts, I have not found this on most other stations in the area. I believe that it is important that this station and the others affiliated with it stay on the air
